Git · Docker · Kubernetes
AI · Codex · Claude Code

EDUCATION

EPITECH · Montpellier

Sep 2022 — 2027

Information Technology Expert programme (5th year), RNCP Level 7. Final-year project lead for Nodl, managing a four-person team.

EXPERIENCE

RTBF

2025–2026 · Brussels · 6 months

Developed an NMOS registry federation tool and device-to-device connection workflows using Vue and C#. Productionised the solution with Clean Architecture and CQRS in an Agile team.

Schneider Electric R&D

2024 · Lattes · 10 months

Developed multi-vendor industrial network monitoring software using SNMP and LLDP. Produced technical documentation and internal presentations; worked with redundancy protocols and PTP.

Schneider Electric R&D

2023 · Lattes · 6 months

Virtualised electrical devices with Libvirt: managed and analysed virtual machine data, tested and deployed the solution.

PROJECTS

Beam — 54 stars
High-performance screen recorder

ARGUI — 34 stars
Cross-platform Rust GUI · WGPU rendering

Nodl — nodl.dev
Real-time motion graphics for the web

MSDFGen-Sharp — 4 stars
Pure C# MSDF text generation

Maskot — maskot.plinka.eu
Animated SVG character studio

CONTRIBUTIONS

Recordly — 34,494 stars
Maintainer · Screen recorder

TiXL — 5,151 stars
Contributor · Real-time motion graphics
